 George D. Crouch, of the old firm of Crouch & Orgain, has opened a produce and commission house at 119 South Third street, opposite the court-house, and deals in all kinds of country produce, buying and selling same, and makes specialties of eggs, hides and furs. Mr. Crouch is well known to the grocery trade of this city as a straightforward, staunch young business man who can be relied on and who understands the trade, and has a large acquaintance.

Discharged.
 Lindsey Perkins and Lewis Meriwether, charged with the murder of Albert Wills at Barker's mills some six weeks ago, were discharged by Judge Brasher at Hopkinsville. While the circumstantial evidence pointed very suspiciously to the prisoners, the State could not get direct testimony sufficient for a conviction. It is the general belief in the Barker's mill neighborhood that the accused are the guilty parties, but they can't prove it.

No Bonds Issued.
 A report has gained circulation to the effect that the Clarksville Land Company had put out \$300,000 in bonds issued on its capital stock. This is a mistake. The company has not issued a single bond and has no occasion to issue any.

THE SEWERAGE QUESTION.

One Thousand Dollars is Turned Over to the City Treasury.

Now, that the contractor has thrown up his contract to construct the sewerage, it devolves upon the city council to make other arrangements.

The man T. J. Pease, who was awarded the contract, is a member of the contracting firm of Pease & Metzger, of Nashville. When he signed the contract he deposited a certified check for \$1,000 with the city authorities. This check has been turned over to the city treasurer and now belongs to the city as forfeit money. The question now arises as to whether the city can get damages from the firm. It is the general belief that it can, provided the firm of Pease & Metzger is responsible.

The chairman of the sewerage committee is of the opinion that the city can build the sewerage system, and if it costs over the bid of Pease it can make the firm pay the difference. The matter, however, will be laid before the board Thursday evening and will be settled.

There is general regret among the members of the board that the measure has taken the present shape.

The fact that the two bids from Nashville were about \$10,000 apart makes some people think that perhaps Pease made an error in his calculations. There is nothing in this. Contractors differ more than any set of men in the world. When the contract was let for building the reservoir at Nashville, the engineers estimate on the work was \$300,000. There were about thirty bids made. These bids ranged from \$300,000 to \$750,000, and the man who got the contract made about \$100,000 on the job.

Two Nashville contractors have made bids on the sewerage of this city. They bid approximately \$25,000 and \$35,000. The lowest man is out, the other is here wanting the work at \$35,000. It would be unwise to allow either one of them to take the job. It would be safer to advertise for bids a second time, for "deals" are very frequent nowadays.

An Important Event.
 H. I. Killball was formerly the first lieutenant of George M. Pullman in the erection of the city of Pullman, beside the lake. He has ambition and ability to make the new town of Kimball, on the Tennessee river, an industrial development equal to Pullman or any other locality in the world.

No lots have yet been sold. Col. Logan H. Root, a financier of national reputation, who is President of the Kimball Town Company, was unwilling to make sales of lots until the finances were absolutely assured necessary for the accomplishment of great purposes. But on June 10th and 11th there is to be a preliminary sale of lots for the benefit of those persons who desire to be with this town from its inception. It is the only locality where the Tennessee river touches the Cumberland mountain coal fields. Iron is but a few miles distant, limestone beneath the feet, and coal upon the banks of the river.

Clarksville Mineral Road Is the Name.

Engineer Cobb opened his office to-day, two rooms in the Bailey building on Second street near the court-house, and now has a full force of surveyors on the Dickson line, locating and getting the right-of-way.

Capt. Cobb has named the new branch, the Clarksville Mineral Road, which is indeed a very appropriate name and signifies more for Clarksville than usually appears in a name, as will be exhibited in some future developments.

The road will not run by Charlotte as many had hoped, but a branch will be built to Cumberland Furnace, five or six miles from the main line.

The people of Dickson county are in fine spirits over the prospect of the road, and are affording the builders every facility possible. The right-of-way has been granted through that county to the Montgomery line, not a single man refusing or pulling back, and it is to be hoped that the Montgomery county people will be equally as liberal and active in forwarding the work. The reason for commencing at Dickson is because of the open country and free right-of-way, which facilitates the work.

Capt. Cobb says they can finish the work in Dickson county while getting ready and opening the way through dense forests and hills on the Montgomery side, but the whole line will be pushed to a finish as fast as possible.

His Whereabouts Unknown.
 R. F. Farmer, a tobacco dealer of Crossland, Ky., is missing and his whereabouts can not be discovered. Some days ago he came to this city and obtained letters of credit from Herndon & Major, of the Grange warehouse. He went to Paris, Tenn., and drew \$4,000 on this letter. Since that time he has not been heard from. Herndon & Major have attached enough tobacco belonging to Farmer to cover all losses. They inform the LEAF-CHRONICLE that they will not loose a cent by the transaction.

Centenary of Methodism.
 A centenary celebration of Kentucky Methodism is held to-day at Russellville. The newly elected bishops, Dr. Fitzgerald and Dr. Haygood, are taking a leading part in the exercises. Railroad excursion rates were given from all central points in Kentucky and Tennessee, and an immense crowd was expected. Several parties went from here this morning and will return to-night.

In Man and Woman's Own Neglect.
 Of themselves will be found original cause, in nine cases out of ten, of all the bodily ailments from which they may suffer. A tired feeling or slight indisposition is treated indifferently and the body left to work out its own restoration to health, minor ailments being looked on as trifles. This is the great mistake, and one which often causes long spells of sickness. Were the old adage practiced in time "An ounce of Prevention is better than a pound of Cure" all that suffering would have been spared. Eiler's Extract of Tar and Wild Cherry is the Great Panacea for the use and for the cure of Coughs, Colds, Hoarseness, Spitting of Blood, Asthma and Pains in the Chest and Lungs, it is also excellent in first stages of Consumption. Eiler's Daylight Liver Pills cure Sick Headache, Nervousness, Dyspepsia and all Bilious Complaints. Both remedies are guaranteed. For sale, wholesale and retail by Lockert & Reynolds druggists.

The Clarksville Dental Parlors.
 POPULAR PRICES TO CONTINUE.
 Dr. Markwell, of the Clarksville Dental Parlors, has consented to extend the time of his present prices at the Clarksville Dental Parlors for the benefit of those who have not had an opportunity of taking advantage of the low-price season, so that all may have first-class work done at living prices. Of the more than 300 patients of the Dental Parlors, none to our knowledge but speak in the highest terms of Dr. Markwell. At present the prices continue to be: full set of teeth on best rubber plate, \$8.00; gold fillings, \$1.00 and upwards; teeth extracted painlessly, 50 cents.

Illness of a Prominent Man.

The friends of Rev. J. W. Rust, of Hopkinsville, will very much regret to learn that his health is in an extremely critical condition. For more than a month he has been confined to his room and gradually grows weaker. His life-long friend, Dr. Sears of this city, will go to Hopkinsville to visit him this evening.

Many years ago Dr. Rust was a resident of Clarksville, but has lived in Hopkinsville for quite a while, and since 1857 has been president of Bethel Female College at that place. He is one of the leading Baptist ministers and educators in the South.

A Fighting Lad.
 William Bellamy, a vicious negro boy, created no little disturbance on the streets this morning. He knocked another boy off a dirt cart with a rock and some persons interfered, when Bellamy cursed them out, threatening to kill them if they troubled him. Pretty soon Bellamy was grabbed by Officer Holleman and started to the lock-up, but jerked away from Holleman and his assistant, making fight. Marshal Stacker went to the officer's assistance and it took four men to put the nippers on him. Bellamy looks to be about eighteen years old.

WEBSTER'S UNABRIDGED ANCIENT EDITION.
 A so-called "Webster's Unabridged Dictionary" is being offered to the public at a very low price. The body of the book, from A to Z, is a cheap reprint, page for page, of the edition of 1847, which was in its day, a valuable book, but in the progress of language for over FORTY YEARS, has been completely superseded. It is now reproduced, broken type, errors and all, by photo-lithograph process, is printed on cheap paper and firmly bound. A brief comparison, page by page, between the reprint and the latest and enlarged edition, will show the great superiority of the latter. These reprints are as out of date as a last year's almanac. No honorable dealer will allow the buyer of such a reprint to be in getting the Webster which to-day is accepted as the Standard and THE BEST—every copy of which bears our imprint as given below.
